

VEHICLE TO GRID EV CHARGING

EDUCATIONAL INITIATIVE

OVERVIEW

The Vehicle to Grid Charging Educational Initiative will bridge the knowledge gap between the electricians who install and maintain EV charging stations and the technicians who service electric vehicles.

Year 1

Develop V2G charging curriculum.

Present EV charging station training seminar to secondary and post secondary faculty.

Year 2

Implement V2G charging curriculum in extant course and gather data on impact.

Present EV service and repair seminar to secondary and post secondary faculty.

Year 3

Analyze and revise V2G charging curriculum.

Disseminate V2G curriculum through ATE and State University of New York
