

# Improving Advanced Manufacturing Technician Education Using Industry Partnerships

## Project Goals

**1** Growing industry partnerships to improve instruction and curriculum content

**2** Training industry professionals to serve as faculty in technical education degree programs

**3** Strengthening career pathways for students between industry, local economic agencies, and non-profits

## The Project So Far

**1** New course  
ELE 246  
INDUSTRIAL ROBOTICS

**2** Faculty trainings and new adjunct professors from industry partners

**3** FANUC Robotics Certification Carts

## Central Virginia Community College

We kicked off our second ATE grant in September

2022 with **44** partners in attendance!
